

CAPYBARAS ARE

GIANT FURRY FRIENDS

1

Capybaras are the biggest rodents in the world—some weigh about 200 pounds!

WATER LOVERS

2

They have special webbed toes for swimming and can hold their breath underwater for as long as it takes to sing the "Happy Birthday" song!

3

FRIENDLY

Capybaras hang out in big groups, sometimes as many as all the kids in your class... and more!

CHEWY CHOMPERS!

4

Their teeth never stop growing, so they munch on plants all day to keep them just the right size

5

FAST

Capybaras are surprisingly fast! They can run over 20 miles per hour

NATURE'S RECYCLERS

6

Capybaras eat their poop to get every bit of goodness out of the plants they eat —yuck, but true!
